

## 2011 NEW YEAR'S CROP (*January 6-13*)

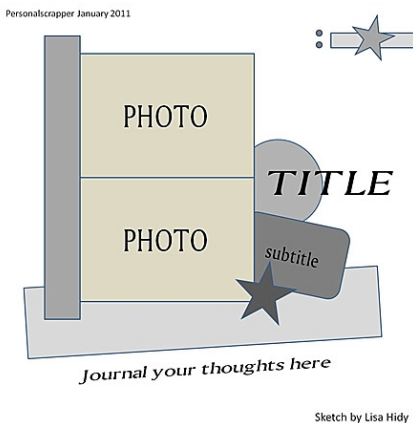

1. Use only a PersonalScrapper kit to create your layout(s) - no other embellies.

*These layouts can also be entered into the Monthly Layout contest that was just posted. You can do this challenge as many times as you want.*

2. Create a Christmas layout. It can be about traditions for Christmas, Christmas Eve or Day, or even your Christmas card!

*Every year I assemble all of the Christmas cards I receive on scrapbook paper and put them in a scrapbook. I make sure all of the photo cards show and sometimes put the other ones into pocket pages.*

3. Use a January PageMaps sketch or Lisa's January sketch for this challenge.

4. Use at least 3 different patterned paper squares on your layout. They can be big or small and you can do more than 3!
5. Use a stamp on your layout. If you are like me, you have several unused stamps. Break them out and create a title or background design.
6. Create a layout with an enlarged photograph.
7. Use 3 different alphabets on your layout - they can be stickers or stamps.
